About Nebraska Cattlemen

The Nebraska Cattle Industry is the state's single largest industry. Cattle outnumber people 4 to 1 in Nebraska. Cattle sales total more than \$6.2 billion a year, and the impact on Nebraska's economy is unmistakable.

Recent wildfires have burned nearly 1 million acres of Nebraska rangeland. The fires have heavily impacted the Nebraska Sandhills, one of the most productive and globally recognized beef-producing regions in the world. The long-term effects of this disaster will be felt for years to come.
